## YOU WILL NEED:

- Store bought pom pom makers
- Colored felt
- Scissors
- 3 Skeins of 4 or 5 weight white yarn
- Pencil
- Hot glue gun and glue sticks
- Buttons
- Floral Wire
- Wire Cutters
- 3/16 Dowel rod
- Optional:
  - Other embellishments

## Build the pom poms.

Use the pom pom maker to build 4 pom poms. (Use the DIY Pom Pom Mickey instructions for reference on how to do this.)

This example uses one 4 1/2", one 3 3/8", and two 1 5/8" pom poms to build one snow mouse.

## Attach the pom poms.

Cut a 6" piece of dowel rod and stick it through the 4 1/2" pom pom until it hits the bottom. Lift halfway up, apply some hot glue and re-insert.

Attach the 3 3/8" pom pom to the top of the dowel rod and secure with glue.

## Attach the ears.

Carefully cut two 3" pieces of floral wire. Stick the wire through the pair of 1 5/8" pom poms and secure with hot glue.

With the ears on the wire, carefully push through the top pom of the snow mouse, lift half way out, apply hot glue, and re-insert.

## Add the felt.

Use the colored felt to cut out eyes, a carrot nose, and a scarf.

Eyes: Cut two ovals of black felt, then cut two tiny triangles out of each.

Nose: Cut a triangle out of the orange felt, roll, and attach the sides with glue.

Scarf: Cut two lengths of felt, attach color strips along both. Wrap one around the neck, then fold and insert the second.

## Add the final details.

Glue two buttons down the front of the mouse.

For Minnie, create a felt bow or attach a pre-made bow. Add or create some sprigs of holly leaves for flair.
