

Happy Mother's Tray

Mickey Bouquet

You will need:

1 SHEET OF PAPER

1 STRAW OR PENCIL

TAPE OR GLUE

KID-FRIENDLY SCISSORS

A PRINTER

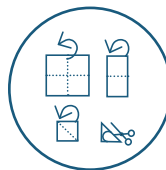

COLORING SUPPLIES

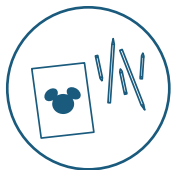

Let's get started!

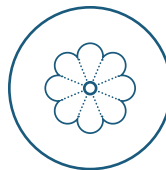

1 Print out a copy of the Happy Mother's Tray Mickey Bouquet template.

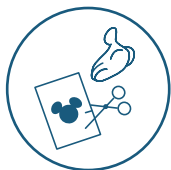

5 Take a square and fold it in half. Now fold in half again. One more time. Perfect! Now carefully cut along the solid lines. Repeat this step for your second square.

2 Color in the squares, rectangle and Mickey head any way you'd like. The squares will become your flower petals. The rectangle will become your stem.

6 Open up your cut-up squares. Now you have petals! Slide the petals onto your stem.

3 Once you are done coloring, use your scissors to cut everything out. Solid lines are for cutting. Dotted lines are for folding. **All cutting should be done by an adult.**

7 Cut out your Mickey head and tape or glue it on top of your petals. You did it! That's one amazing flower.

4 Roll your rectangle around a straw or pen. You can use tape or glue to keep the paper in place.

8 Repeat steps 1-7 to make multiple flowers for your bouquet. Don't forget to share your bouquet with #DisneyMagicMoments.
