4. Using kid-friendly scissors, carefully cut out the time capsule cover and decorations. Remember all cutting should be done by an adult.

5. Decorate your capsule by gluing or taping on your capsule cover and icons.

6. Once everything is dry, work with your family to fill up your memory capsule with things special to all of you. Check out the list below for ideas.

7. You did it! Now, fill out the date and decide when you will open the capsule together. Happy Father’s Day! To see more Father’s Day content check out #DisneyMagicMoments.
