DISNEYLAND POP-UP MAP

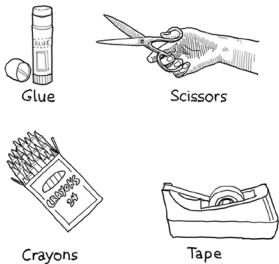

Sheet Numbers: A, B, C + 1, 2, 3, 4

HISTORY

When Walt Disney first opened Disneyland® on July 17, 1955, he created a unique destination where families could be immersed in storytelling and new experiences. More than 60 years later, the Disney Parks have continued to grow, ushering in new generations as well as new stories and lands.

From the beginning stages of planning the park, maps have been essential in showcasing the design and history of Disneyland. From Herb Ryman's initial aerial-view sketch that helped Walt secure financing to build the park to the guide maps of today, maps and Disneyland go hand in hand. We hope you enjoy making your own pop-up version, ready to fold up and take along on your next trip!

MATERIALS

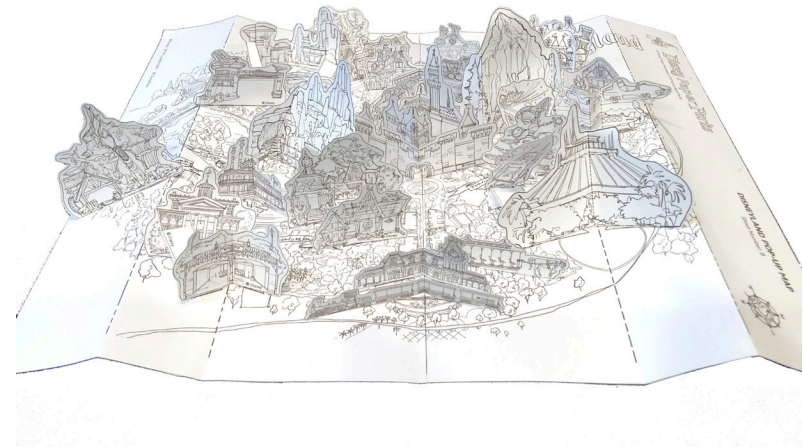

GUIDE

Lines

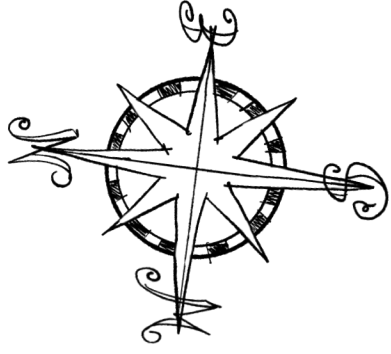

-----	Valley fold, fold in front
.....	Mountain fold, fold behind
_____	Cut
.....	X-ray or guide line.

INSTRUCTIONS

1. Color the sheets as you like.
2. Fold Sheet A in half. Cut sheets B + C along the solid line, cutting from one end of the sheet to the other. Fold along the lines, where indicated. Line up the cut edges along the middle fold inside Sheet A (the cover sheet) and glue the sheets to the inside.
3. To build the pop-up components (sheets 1, 2, 3, & 4), cut out all pieces, grouping by map area. Fold along lines, where indicated. Glue the tabs as labeled, being careful to glue each tab to its corresponding place in the plan. We recommend testing the location and folds prior to applying glue.
4. To close the map, folding the sides before folding in the center is recommended. Now you're ready to plan your Disneyland trip!

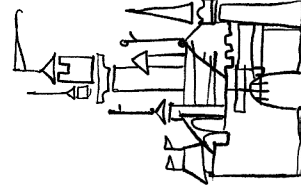

Please Note: When cutting with scissors and working with any of the materials listed above, adult participation and supervision is recommended.
