HALCYON STARCROISER

Sheet Numbers: 1, 2 & 3

HISTORY

The Halcyon starcruiser is the jewel of the Chandrila Star Line. Onboard the 100-cabin Corellian MPO-1400 model starcruiser, you'll voyage to the far reaches of the galaxy in legendary comfort and style. Recently refurbished and reoutfitted, the starcruiser combines modern conveniences with the romance of the age of exploration.

Star Wars: Galactic Starcruiser is like nothing else you've ever experienced: part live immersive theater, part themed environment, part culinary extravaganza, part real-life role-playing game—and yet so much more.

Step off the launch pod and into your own epic *Star Wars* story, one where you decide your fate. While your story unfolds, you'll have the power to choose your path. Will you follow the rule of the First Order or join the Resistance in a secret plot? Strike a bargain with a gang of smugglers or sit back and watch it all from a safe distance?

The choice is yours. You are the hero of your very own *Star Wars* adventure—the most immersive *Star Wars* experience ever created!

MATERIALS

Glue

Scissors

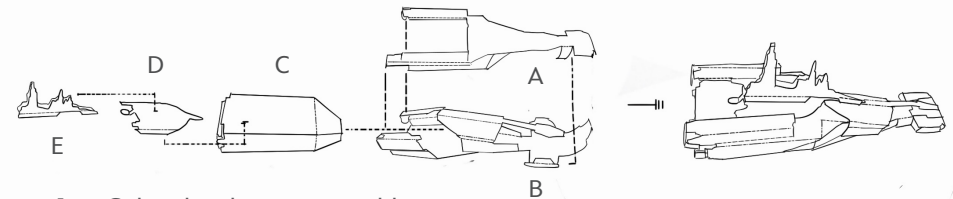

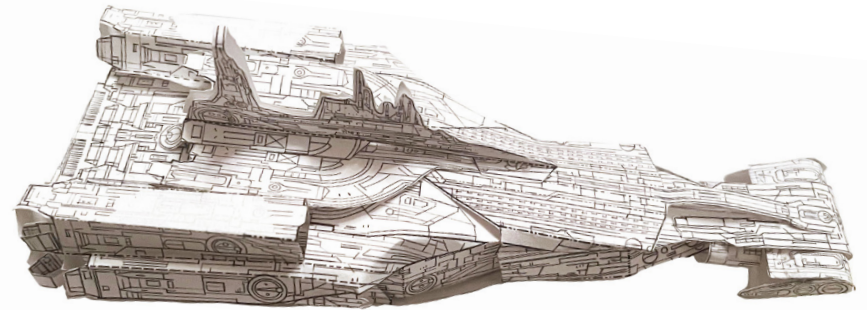

Crayons

GUIDE

-----	Valley fold, fold in front
.....	Mountain fold, fold behind
————	Cut

Please Note: When cutting with scissors and working with any of the materials listed above, adult participation and supervision is recommended.

INSTRUCTIONS

1. Color the sheets as you like.
2. Cut along the solid lines and where indicated. Fold along the lines where indicated, paying special attention to the mountain and valley folds.
3. Start with Piece C. Glue tabs to create a box. Set aside.
4. Glue Piece A and Piece B together, using Piece C to ensure the fit is correct. We recommend setting the model on a flat surface while gluing the tabs to make sure it does not bend upward, especially when gluing the tip of Piece B to the front of the ship.
5. Glue the cut edges of the engine pieces of Piece A to Piece C to secure it in place. Glue the tabs of the engines together.
6. Glue the tabs of Piece D in between the engines of Piece A, on top of Piece C. Finally, glue the tabs of Piece E to Piece D and the tip to Piece B.
7. Congratulations! Your Halcyon starcruiser is now ready for flight!
