## HISTORY

The Hatbox Ghost was one of the most famous of the grim grinning ghosts to appear when the Haunted Mansion opened in Disneyland Park in 1969.

Appearing in the attic scene near the Bride, he was dressed in his signature cloak with a hatbox in hand. He was quite advanced, using new animatronic effects not yet seen in the park. In this effect, his head would vanish and appear in his hatbox! He was removed shortly after opening, much to the chagrin of fans, but he returned to Disneyland in 2015.

In 2023, the Hatbox Ghost will materialize in the Magic Kingdom! Keep an eye out for him when he makes his appearance among the 998 other happy haunts in The Haunted Mansion, but make sure you don't have any ghosts following you home!
