

# IMPORTANT PRODUCT INFORMATION

## Link your MagicBand+ to your Disney Account to Enjoy More Exciting Features

**Step 1:** Unbox your MagicBand+ and tap the band to your smartphone. Then, unlock your phone when prompted.

**Step 2:** You will be directed to the appropriate Disney app or download link.

**Step 3:** Follow the instructions in the app to complete the linking process.

**Step 4:** If you have not already done so, please link your tickets, reservations or other entitlements to your account in your app.

Please note that certain experiences require you to have Bluetooth enabled on your Device. Some experiences may require additional purchases.

If you need help, please visit Guest Relations in person or online. You can use your MagicBand+ on multiple visits as long as it's linked to valid tickets, reservations or other entitlements.

## Congratulations!

You have now successfully linked your MagicBand+.

### IMPORTANT PRODUCT INFORMATION

**SAFETY INFORMATION:** FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK, OR OTHER INJURY OR DAMAGE.

**BATTERY SAFETY:** HANDLE WITH CARE.

Your Device contains a rechargeable lithium-ion polymer battery and should be replaced only by a qualified service provider. Do not disassemble, open, crush, bend, deform, puncture, shred or attempt to access the battery in your Device. Do not modify or manufacture the battery, attempt to insert foreign objects into the battery, or immerse or expose it to water or other liquids, expose to fire, explosion or other hazard. Only use the battery for the system for which it is specified. Use of an unqualified battery or charger may present a risk of fire, explosion, leakage or other hazard. Do not short-circuit a battery or allow metallic conductive objects to come into contact with battery terminals. Avoid dropping the Device or battery. If the Device or battery is dropped, especially on a hard surface, and the user suspects damage, do not attempt repair. Contact Disney Customer Service for assistance.

#### CHARGING:

Your Device should only be charged using the included USB charging clip. Your USB charging clip should be powered using a compatible USB charger or USB port that is compliant with safety standards, such as IEC 62368-1 and/or IEC 60950-1. Do not charge your Device near water or in extremely humid conditions.

#### CHOKING HAZARD: WATCH FOR SMALL PARTS.

Your Device and accessories may present a choking hazard to small children. Keep them out of reach of small children. This Device is not a toy.

#### USING MAGICBAND+ AROUND OTHER ELECTRONIC DEVICES:

The MagicBand+ generates, uses, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices.

While most modern electronic equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

There are some places where RF signals could constitute a hazard, such as health care facilities, and construction sites. If you are not sure, look around for signs indicating that two-way radios or mobile phones should be turned off.

#### RADIO FREQUENCY INFORMATION

##### FCC COMPLIANCE:

This Device and its related accessories like the adapter (the "Products") comply with part 15 of the FCC Rules. Operation of each Product is subject to the following two conditions:

- (1) each Product may not cause harmful interference, and
- (2) each Product must accept any interference received, including interference that may cause undesired operation.

Note: The Products have been tested and found to comply with the limits for a Class B digital device or external switching power supply, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The Products generate, use and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If a Product does cause harmful interference to radio or television reception, which can be determined by turning the Product off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Pursuant to Section 15.21 of the FCC rules, changes or modifications to a Product by the user that are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The Device meets the FCC Radio Frequency Emission Guidelines. The Device must not be co-located or operating in conjunction with any other antenna or transmitter. Information on the product is on file with the FCC and can be found by inputting such Product's FCC ID (which can be found on the Device) into the FCC ID Search form available at <https://www.fcc.gov/oet/ea/fccid>.

The party responsible for FCC compliance is Amazon.com Services LLC 410 Terry Ave North, Seattle, WA 98109 USA

If you wish to contact Amazon regarding FCC compliance, visit [www.amazon.com/devicesupport](http://www.amazon.com/devicesupport), select United States, click Help & Troubleshooting, then scroll to the bottom of the page and under the Talk to an Associate option, click on Contact Us.

**DEVICE NAME:** MagicBand+  
**MODEL:** SP2R8N

#### INFORMATION REGARDING EXPOSURE TO RADIO FREQUENCY ENERGY:

Your Device is designed and manufactured not to exceed the emission limits for exposure to RF energy set by the Federal Communications Commission of the United States (FCC). Information on your Device is on file with the FCC and can be found by inputting your Device's FCC ID (which can be found on the back of your Device) into the FCC ID Search form available at [transition.fcc.gov/oet/ea/fccid](https://www.fcc.gov/oet/ea/fccid).

#### PRODUCT SPECIFICATION:

Model Number: SP2R8N  
Electrical Rating: 5V ~  
Connectivity: Bluetooth Low Energy  
Temperature Rating: 0°C to 35°C

#### INFORMATION ON YOUR MAGICBAND+ AND RADIO FREQUENCY (RF) TECHNOLOGY:

Your MagicBand+ contains an HF Radio Frequency device and a transmitter which sends and receives RF signals through a small antenna inside the MagicBand+ and enables it to be detected at short-range touch-points throughout Walt Disney World Resort. The MagicBand+ can also be read by long-range readers used to deliver personalized experiences, as well as provide information that helps us improve the overall experience in our Parks.

#### RADIO FREQUENCY TECHNOLOGY:

RF technology is common throughout the world, in everyday items like credit cards, video game controllers, keyless car entry, fitness wristbands and much more. Walt Disney Parks and Resorts has systems and devices using RF technology that are designed, tested and manufactured to comply with Federal Communications Commission (FCC) regulations. The levels of RF energy generated are similar to those found in many consumer devices.

If you prefer, you may elect to use an RF card instead of a MagicBand+. The card contains a passive HF radio frequency chip and cannot be detected by long-range readers. To learn more about our privacy and data collection policies, visit [MyDisneyExperience.com/privacy](http://MyDisneyExperience.com/privacy).

#### IF YOU HAVE AN IMPLANTABLE PACEMAKER OR CARDIOVERTER-DEFIBRILLATOR (ICD)

- We encourage you to seek guidance of the manufacturer of your Device and your physician.
- Manufacturers of implantable pacemakers and cardioverter-defibrillators (ICDs) typically recommend the following guidelines to avoid potential interference between pacemakers or ICDs and RF transmitters comparable to the one found inside the wristband and in the touch points found throughout Walt Disney World Resort.

#### PERSONS WITH IMPLANTABLE PACEMAKER OR ICD:

- Should always keep the wristband at least nine (9.0) inches (23 cm) away from their medical device.
- Should not carry the wristband in their breast pocket.
- Should immediately move the wristband such that it is at least nine (9.0) inches (23 cm) from the pacemaker or ICD if they suspect interference is taking place.
- Should read and follow the directions from the manufacturer of the implantable pacemaker or ICD and/or consult their physician.

#### OTHER MEDICAL DEVICES (INSULIN PUMPS, NEUROSTIMULATORS, HEARING AIDS, ETC.)

If you use any other personal medical device, we encourage you to consult the device manufacturer and your physician for information. For more information, please visit [disneyworld.com/faq/rf-technology](http://disneyworld.com/faq/rf-technology)

#### CLEANING AND HANDLING INSTRUCTIONS:

##### SKIN IRRITATION:

- Clean this Device regularly with a soft, lint-free cloth, especially the areas that contact the skin. Do not use abrasive chemicals or materials.
- Do not wear the Device too tightly or loosely. Wear it loose enough to allow air circulation. In addition to keeping the band clean, be sure to completely dry the band after exposure to water, sweat, or other liquids, as well as clean and dry wet areas of your skin that contact the band. After extended wear, remove the Device for an hour to give your wrist a rest and allow your skin to breathe.
- Prolonged use or improper maintenance of this Device may contribute to skin irritation or allergies in some users. Individuals with skin sensitivities may be more likely to experience irritation from wearable devices.
- To minimize situations causing discomfort or skin irritation, make sure you are wearing the Device correctly (not too tight and not too loose) and that there is no residue or foreign material buildup that could aggravate the skin.
- If skin irritation, discomfort, allergies, redness, swelling, or other problems develop while wearing the Device, remove and discontinue use of your Device and wait a few days for symptoms to cease. If symptoms persist or worsen, consult a physician.
- Keep the Device, charging clip, and cable in a well-ventilated area and away from heat sources, especially when in use or charging. If the Device becomes warm, take it off immediately and place on a surface that is at room temperature. Do not charge your Device near water or in extremely humid conditions.

#### RECYCLING YOUR DEVICE PROPERLY:

In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of or recycle your Device in accordance with your local laws and regulations.

#### AMAZON TERMS & POLICIES:

MagicBand+ is an Alexa-compatible accessory. Use of Alexa and any Alexa-enabled device is subject to the terms at [amazon.com/alexaterms](http://amazon.com/alexaterms). By using this MagicBand+ with Alexa, you agree to be bound by those terms.
