# GENERAL INFORMATION

This information provides an overview of services and facilities available for Guests with disabilities or medical conditions who will be sailing with *Disney Cruise Line*. This booklet is intended to supplement the *Disney Cruise Line Navigator* App that contains additional information and entertainment schedules.

*Disney Cruise Line* strongly advises Guests who may need assistance while traveling to sail with someone who is able to personally assist them both aboard the ship and on shore. Guests may need assistance to utilize certain facilities (such as Guest pools and tender boats), and this transfer may require the aid of a member of their party.

## SPECIAL SERVICES

To assist Guests with questions they may have, *Disney Cruise Line* Reservation Services is equipped with information about onboard services and facilities. *Disney Cruise Line* offers special equipment and facilities for Guests with disabilities. For information, please call Special Services at **(407) 566-3602** or [specialservices@contact.disneycruiseline.com](mailto:specialservices@contact.disneycruiseline.com).

In addition, Guests should notify the Special Services team, at the time of booking, of any condition for which special accommodations and/or the use of a medical or mobility device might be necessary while onboard the ship.

Guests may submit a Special Services Form ([available online](#)) to *Disney Cruise Line* at least 60 days prior to the sailing date. Once the form has been received, *Disney Cruise Line* will determine its ability to accommodate requests on a case-by-case basis. Due to the limited medical facilities onboard the ship and other factors, *Disney Cruise Line* may not be able to accommodate all requests. Additionally, failure to disclose an accurate or complete description of any special needs may result in *Disney Cruise Line* not being able to provide the appropriate accommodations or arrangements.

Special Services can also supply information about medical and rental supply companies available near the terminal.

## GUEST SERVICES

*Guest Services* provides a variety of services including general information, entertainment schedules, and information on services for Guests with disabilities.

## DISABILITY PARKING

Designated disability parking areas are available at the *Disney Cruise Line* terminals at U.S. embarkation ports. A valid disabled parking permit is required.

## IN-PORT ACCESS

Please note that many of the shops and facilities in foreign ports of call may not be accessible to Guests with disabilities. Prior to sailing, please contact *Disney Cruise Line* Special Services, or when onboard, consult the Port Adventures team for accessibility information.

# MEDICAL ASSISTANCE ONBOARD

## MEDICAL CARE

Guests should verify with their personal physician that they are well enough to travel on the itinerary they have chosen. In addition, Guests should carry copies of their pertinent medical and emergency contact information with them.

## HEALTH CENTER

The *Health Center*, located on Deck 1 Forward (Deck 9 Forward *Disney Adventure* only), is open during daily clinic hours to provide non-emergency medical care throughout the sailing. In the event of a medical emergency, a Doctor and Nurse are on call 24/7. Occasionally, it may be necessary for a patient to disembark the ship for transport to a nearby medical facility.

Guests are responsible for all medical fees incurred in the *Health Center* and will be charged automatically to the Guests stateroom account. Medical services provided from the *Health Center* are considered care outside of home country, and no insurance is accepted onboard. Documentation of care will be provided, and Guests may submit claim requests to their personal insurance carrier, or other travel insurance provider as needed. Prior to sailing, Guests should validate with their insurance provider to determine whether their coverage includes reimbursement for care outside of their home country. If their current policy does not cover this service, it is recommended to purchase additional medical and evacuation coverage through their provider, and/or other travel insurance that includes medical.

## MEDICAL AIR EVACUATION (MEDEVAC)

In the event of serious medical conditions and/or due to the limited medical capacity onboard the ship, it may become necessary for a patient to be air-lifted to a nearby medical facility. Prior to sailing, Guests should validate with their insurance provider to determine whether their coverage includes reimbursement for care outside of their home country and is inclusive of MedEvac by air ambulance. If their current policy does not cover this service, it is recommended to purchase additional medical and evacuation coverage, through their provider and/or other travel insurance that includes medical. Without coverage, fees incurred will be expensive and are due prior, or at the time of service.

## TRAVELING DURING PREGNANCY

Guests who have entered their 24th week of pregnancy as of their embarkation date or who will enter their 24th week of pregnancy during the cruise will be refused passage due to safety concerns. Neither a physician's medical statement nor a waiver of liability will be accepted. In addition, *Disney Cruise Line* cannot be held responsible or liable for any complications relating to pregnancy at any stage. This policy is in place for the safety of pregnant Guests. While the *Health Center* onboard the ship can handle many emergency situations, it is not equipped to provide critical care for premature deliveries.

# ALLERGENS

Guests with allergies to environmental factors should note that exposures onboard *Disney Cruise Line* vessels are similar to any large city environment. *Disney Cruise Line* cannot with certainty identify or remove all potential environmental triggers or limit allergen triggers that may be brought on by other Guests.

## SPECIAL DIETARY NEEDS

By substituting different ingredients and approaches, *Disney Cruise Line* can accommodate the following common food allergies at table-service restaurants:

- Peanut
- Tree Nut
- Egg
- Fish
- Shellfish
- Soy
- Wheat
- Milk
- Sesame

Additionally, lifestyle or cultural meal options, including Kosher and Halal, may be available upon advance request at no additional charge. Be sure to notify the *Disney Cruise Line* Contact Center or your travel agent of your request. Please note: These requests cannot be accommodated at Quick Service locations or through in-room dining.

For concerns regarding life-threatening or severe dietary allergies, notify the Special Services team at 407-566-3602 or complete the Special Services form ([available online](#)) as soon as possible, prior to your cruise.

Once onboard the ship, dietary allergies should also be brought to the attention of your Head Server.

We strive to use reasonable efforts in our food sourcing, preparation, and handling procedures to avoid the introduction of the named allergens into your menu choices. While we take steps to prevent cross-contact, we do not have separate allergy-friendly kitchens and are unable to guarantee that a menu item is completely free of allergens.

Please also note that our allergy-friendly offerings are reliant on supplier ingredient labels, and we cannot guarantee the accuracy of the contents of each food item. Allergen advisory statements (e.g., “may contain”) are not regulated and therefore not taken into consideration when developing allergy-friendly meals. It is ultimately up to your discretion to make an informed choice based upon your individual dietary needs.

## STORING AND HANDLING PERSONAL FOOD ITEMS AND MEDICATIONS

Crew Members are prohibited from storing, preparing, cooking or reheating any food brought aboard our ships by Guests.

# KNOW BEFORE YOU GO

## MEDICATIONS

Guests should carry an ample supply of all necessary medications and medical supplies for greater than the length of the cruise. Items should be in their original containers and packed in the Guests carry-on bag and not in checked luggage. Limited over the counter medications and medical supplies are available onboard in the ship's *Health Center* at an additional cost. Staterooms onboard offer beverage coolers which can typically keep a temperature around 40-42 degrees Fahrenheit. For medicine, if a lower refrigerated temperature is required, please contact Special Services. Prior to sailing, Guests may contact the Special Services team to request medical accommodations. Upon return to the port, Guests should be sure not to leave any medications behind when they disembark as *Disney Cruise Line* is not permitted to mail any medications. For further information, Special Services can be reached at 407-566-3602 or [specialservices@contact.disneycruiseline.com](mailto:specialservices@contact.disneycruiseline.com).

## GUEST EQUIPMENT STORAGE

Safety regulations require all Guest equipment — including wheelchairs, electric mobility scooters and strollers — be stored inside Guest staterooms when not in use. Parking electric mobility scooters, wheelchairs, strollers or other devices in Guest corridors or stairwell landings is strictly prohibited. If necessary, alternate parking locations are available onboard.

- *Disney Magic* and *Disney Wonder*: Deck 6 Midship, by the elevator landing
- *Disney Dream* and *Disney Fantasy*: Deck 2 Midship, by *Enchanted Garden*
- *Disney Wish*, *Disney Treasure* and *Disney Destiny*: Please contact Crew Members once onboard for the nearest parking location
- *Disney Adventure*: Deck 5 Aft, Port and Starboard side, Tender Lobby

Please note: Standard stateroom doorways are 23" wide, and wheelchair accessible staterooms have 32" wide doorways.

## ELECTRICAL LIMITATIONS

For those Guests requiring electrical power for medical equipment, there is an average of two 110-volt electrical outlets per stateroom with a total power capacity of 12 amps. All equipment should have a substantial back-up power supply in the event of an emergency or power outage. Durations of power outages cannot be predicted.

## MEDICAL EQUIPMENT

The addition of some medical equipment, such as multiple mobility devices, hospital beds, etc., may impact the accessibility and/or Guest capacity of a stateroom. Note that *Disney Cruise Line* is unable to accommodate medical equipment that will alter the original furnishings of a stateroom. Please contact Special Services well in advance for additional information.

## WIRELESS INTERNET ACCESS (WI-FI) AND MEDICAL DEVICES

*Disney Cruise Line* offers a variety of Internet packages for purchase. Once onboard, Guests may view and purchase Internet packages from a link within the *Disney Cruise Line* Navigator App. Please note that due to the technology involved and satellite connectivity, the onboard wireless internet service will be noticeably slower than Guests may be accustomed to and may at times be interrupted or unavailable. Guests who monitor/maintain a medical condition wirelessly should be prepared to utilize alternate means to manage any medical condition throughout the sailing.

## DIALYSIS

Guests undergoing dialysis should be aware that the *Health Center* does not have specialized facilities or equipment for dialysis, and *Disney Cruise Line* does not have specialists available.

Guests requiring dialysis are encouraged to contact Special Services to discuss their options.

## EQUIPMENT REPAIRS

*Disney Cruise Line* is not equipped to repair the various types of Guest medical or personal use equipment.

## PERSONAL HEATING PADS

Please note heating pads are not allowed onboard. Heating pads found in any checked or carry-on luggage will be confiscated. Guests should contact Special Services to discuss their options.

## GOING ASHORE

When possible, *Disney Cruise Line* docks at each port of call so Guests may travel directly from the ship to the shore via the gangway. Typically, gangways provide a minimal incline for embarking and disembarking the ship.

At times, the ship may anchor some distance from the port and use tenders (small boats) to transport Guests from the ship to shore and back. Tidal changes or other causes may result in challenges for a Guest with limited mobility and/or using a wheelchair or mobility device to disembark due to steep gangways or difficult tendering process. Crew Members can provide some assistance, but in particular cases may request to assist Guests separately from their wheelchair/device.

In certain situations, it may be impossible for Guests with limited mobility and/or using a wheelchair or mobility device to utilize the gangway or transfer to the tenders. The decision to assist and allow passage of Guests via a steep gangway or tender is at the sole discretion of the Captain or Captain's designee.

## SHIP EVACUATION VIA LIFEBOATS

In the unlikely event of an emergency evacuation of the ship, Guests may have to spend extended periods of time in lifeboats where electricity and other special accommodations are not available.

# MEDICAL OXYGEN USE AND DELIVERY PROCEDURES

*Please note that carriage or use of liquid oxygen systems or large tank systems are not permitted on board Disney Cruise Line ships.*

Due to safety and storage concerns, the types and quantity of oxygen tanks and supplies may be limited. Please contact *Disney Cruise Line* Special Services to discuss usage needs prior to sailing.

For greater convenience and safety, Guests are encouraged to consult with their physician to determine if they can use an oxygen concentrator. Oxygen concentrators or portable oxygen concentrators (POCs) can eliminate or reduce the number of compressed oxygen cylinders/tanks to be handled or stored during the voyage. Guests travelling with concentrators and/or oxygen must provide their own oxygen supply and related equipment. Guests are also responsible for arranging delivery of their oxygen and related equipment (packaged in a secure container with each item being labeled with the Guest's name and stateroom number) to the *Disney Cruise Line* terminal prior to 1:00 p.m. on the day of ship embarkation.

Guests who have booked hotel stays immediately before or after their *Disney Cruise Line* voyage must arrange for the transportation of oxygen supplies between the airport, their hotel, and the *Disney Cruise Line* terminal. *Disney Cruise Line* ground transportation cannot transport oxygen cylinders or tanks; however, Guests may carry one oxygen cylinder for use while onboard the transportation.

Guests are responsible for notifying their air carrier of any oxygen requirements. Guests who book their air travel through *Disney Cruise Line* and who will require oxygen on their flight should complete a Special Services Form [\(available online\)](#) as soon as possible.

This information is necessary to expedite the delivery of airline tickets and airline contact information in order for the Guest to be able to make adequate arrangements with their air carrier for the use of oxygen in flight.

Guests are free to use their preferred medical supply company but are responsible to provide *Disney Cruise Line* with the delivery and pick-up information, as well as verification, of their oxygen supplies.

# YOUTH ACTIVITIES PARTICIPATION

## PARTICIPATION DETAILS

The secured *Disney's Oceaneer Lab* and *Disney's Oceaneer Club* are open only to children ages 3 – 10. Activities are held in separate areas for tweens (ages 11 – 14) and for teens (ages 14 – 17).

Youth Activity programs are available to children who are fully toilet trained, able to individually participate within our counselor-to-child ratio groups, and interact socially and comfortably with peers of their own age and physical size. We are unable to provide one-on-one counselor care, a counselor with specialty training, or counselor-assisted medical attention. Children who can self-address their personal medical needs can carry medically necessary supplies on their person, or they will be able to store them at the Youth Activities front desk. Additional participation guidelines and restrictions may apply and are established to provide a secure youth entertainment environment. Open House hours are also available so the entire family can join the fun and participate together.

Families are encouraged to speak with the Special Services team before arrival to discuss any questions or clarify these guidelines. Group babysitting at *it's a small world nursery* is available for children ages three and under (for an additional fee); *Disney Cruise Line* does not provide babysitting in Guest staterooms.

## EXCEPTIONS THAT PREVENT PARTICIPATION

A child who has a contagious disease, or who shows symptoms of illness, including but not limited to, fever, vomiting, diarrhea, unexplained skin rash, discharge from the nose or eyes, will not be allowed to participate. A child, who becomes disruptive within the group, may not be allowed to participate.

## OPPORTUNITIES FOR CHILDREN OUTSIDE OF YOUTH ACTIVITIES PARTICIPATION

*Disney Cruise Line* offers a multitude of events and activities throughout the ship, which the entire family can enjoy together, including theatre shows, family game shows, first-run movies, deck parties and events, select shore excursions, and activities at Disney Island Destinations. In addition, parents/guardians may accompany their child to the youth activities during Open House times throughout the cruise.

# AUTISM SPECTRUM DISORDER

*Disney Cruise Line* offers the following information for Guests with an autism spectrum disorder or other disability that impacts their ability to wait in lines or in a crowded environment.

## CHECK-IN/EMBARKATION

Guests should complete online check-in on [DisneyCruise.com](https://disneycruise.com) at least one day prior to the sailing. During online check-in, Guests must choose a port arrival time. All Guests will go through a security screening process that includes bag x-ray and metal detectors prior to entering the terminal. Please be advised that the first two hours are typically the busiest and a later arrival time may be the least impactful. Staterooms are typically available after 2:00 pm; other public venues, including dining options, will be open upon embarkation.

## MANDATORY GUEST ASSEMBLY DRILL

To comply with International Regulations regarding the safety of passengers at sea, *Disney Cruise Line* requires that all Guests participate in the Mandatory Emergency Drill on embarkation day. Please check the *Disney Cruise Line* Navigator App for the start time of the Mandatory Emergency Drill, which will be signified by the sounding of the ship's alarms. At the start time, you will be required to gather everyone assigned to your stateroom and make your way to your Assembly Station to check-in. Crew Members will demonstrate how to don your lifejacket; however, you are not required to bring or wear your lifejacket to the Assembly Station. Be sure to pay close attention to the safety announcements provided during the drill, so you and your entire party are aware of what to do in the unlikely event of an emergency. Please note, if a Guest has other questions or concerns regarding the Mandatory Guest Assembly Drill, contact *Disney Cruise Line* Special Services at least 60 days in advance of sailing at (407) 566-3602 or [specialservices@contact.disneycruiseline.com](mailto:specialservices@contact.disneycruiseline.com).

## YOUTH ACTIVITIES

Please see [Youth Activities Participation](#).

## **MY DISNEY CRUISE BOOKLET**

This printable activity booklet is complimentary and available for Guests to download at [>> Our Ships >> Kids, Tweens & Teens Clubs >> Disney's Oceaneer Club >> Registration, Check-in and More](https://disneycruise.com). It features information for younger cruisers on what to expect from a cruise vacation. The arrival/boarding process, the Mandatory Guest Assembly Drill, as well as highlights of the Disney experiences on board are all included. There are also fun activities children can do before and during the cruise along with helpful vacation tips for families to make the most of their vacation time at sea.

## **THEATRES AND RESTAURANTS**

Some restaurants and theatres feature audio/visual experiences that may be unexpected. If a Guest has specific questions or concerns, contact Special Services at least 60 days in advance of sailing to discuss additional options. Once on board, Guests may contact the restaurant or theatre Crew Members for additional information or to discuss seating options.

Crew Members will be available at the entrance to the *Walt Disney Theatre* beginning 30 minutes prior to show times to assist Guests. Some of the shows feature audio/visual experiences which may be unexpected and include strobe lights and the use of fog. Guests may hold a seat in the theatre if a member of their party has a disability that impacts their early show arrival and an additional seat for a member of the party while they wait elsewhere. They should rejoin their party closer to the start of the show. These seats must be released at show time if there is a demand for seating. To minimize the disruption to the performers and other Guests, seats located in the back of the theatre are recommended for those Guests who may need to come and go during the performance.

Family Movie Fun Time, in our movie theatres, is an opportunity to enjoy a family feature film in a relaxed environment. The ship will leave some lights on and turn the volume down as audience members are welcome to talk, leave their seats, move about, and (most importantly) have fun!

## **CHARACTER MEET AND GREETES**

If a family member's disability impacts his/her ability to wait for a character, the Guest party should wait in the queue while the Guest requiring assistance waits elsewhere with another family member to reunite with their party when it is their turn to meet the character. Single parents or guardians, who are unable to use this option, should notify the Character Greeter for assistance.

## **WATERSLIDES AND RECREATION**

To reduce expected wait times, Guests are advised to arrive just prior to opening or return near closing. Alternate entrances to these experiences are not available.

## DEBARKATION

To ensure a smooth debarkation process upon return to the homeport, please have all debarkation documentation, including Customs forms (where required), prepared and readily available in advance of leaving the ship. Guests needing additional assistance in the terminal, please contact the nearest Crew or Cast Member. The following options are available:

*Express Walk Off* – In most homeports, Guests may carry their own luggage off the ship as soon as it clears Customs to avoid delays and lines inside the terminal. Please note that when utilizing this option, luggage cannot be placed outside of Guest staterooms on the prior evening. Additionally, porter services are not available with Express Walk-Off. For available breakfast options, please discuss with the Head Server.

*Mid-Point Debarkation* – Typically, the lines for luggage retrieval and Customs inspection inside the terminal subside briefly once the second seating for breakfast has begun. This may be a good opportunity to leave the ship with minimal impact.

*Delayed Debarkation* – Guests may remain onboard (although not in their stateroom after 9 am) and debark after most Guests have left the ship. Please pay attention to the final announcement calls for debarkation.

# MOBILITY DISABILITIES

## WHEELCHAIR USE

Guests requiring the use of a wheelchair or other mobility aid during the cruise are responsible for providing their own device prior to boarding the ship. *Disney Cruise Line* has a limited supply of wheelchairs onboard that are used for embarkation and disembarkation assistance, emergencies, and time-to-time usage; *Disney Cruise Line* is unable to guarantee the availability of a wheelchair. Additionally, shipboard wheelchairs may not be brought ashore. For Guests wishing to make rental arrangements, please refer to [Rental and Delivery Companies](#) for additional information.

## WHEELCHAIR ACCESSIBLE STATEROOMS

*Disney Cruise Line* offers wheelchair accessible staterooms and suites, equipped for Guests with disabilities.

Accessible stateroom features for Guests with disabilities may include the following:

- Minimum 32" doorways
- Open bed frames
- Emergency call alarms\*
- Ramped bathroom thresholds
- Bathroom and shower grab bars
- Roll-in showers
- Fold-down shower seats
- Hand-held shower heads

\*To activate the emergency call alarm, please contact *Guest Services* once onboard.

## VENUE ACCESS

Most Guest areas onboard the ship, including theatres, restaurants and shops are accessible. In some cases, such as when utilizing tender services or in Guest pools, Guests may need to transfer from their wheelchairs to utilize the facility, and this transfer may require the assistance of a member of their party.

## POOL LIFT

Once onboard, Guests may request a pool lift by contacting *Guest Services* in advance of use and arrange a time and location for their pool lift needs. The pool lift will be available only for requested periods and cannot remain in place for the duration of the sailing. Please be advised of all pool operating hours as well as adverse weather or sea conditions that may restrict pool lift use. Pool lift maximum weight limit is 300 pounds.

## COUNTER-SERVICE RESTAURANTS

At counter-service locations, Guests using wheelchairs may ask a member of their party to order and transport food or the Guest may contact a Crew Member who will provide table service for them.

For additional ship specific mobility related information, please see:

[Disney Magic and Disney Wonder](#)

[Disney Dream and Disney Fantasy](#)

[Disney Wish, Disney Treasure and Disney Destiny](#)

[Disney Adventure](#)

# HEARING DISABILITIES

## AMERICAN SIGN LANGUAGE

*Disney Cruise Line* provides complimentary American Sign Language interpretation for live theatre performances and other shows and events on various sailings. Our Sign Language service supports a schedule aligned with the 5:45 PM dinner seating and the 8:15 PM performance in the *Walt Disney Theatre*. Please note that seating times are subject to change by 15 minutes. Guests can request sailing dates and other information by calling *Disney Cruise Line* Special Services at (407) 566-3502 or [specialservices@contact.disneycruiseline.com](mailto:specialservices@contact.disneycruiseline.com).

ASL interpreters are shared by all Guests requesting the service. For domestic sailings, reservations must be confirmed 60 days prior to departure to ensure interpretation availability. While onboard, please contact *Guest Services* for further information about Sign Language services.

## ASL INTERPRETATION FOR EUROPEAN CRUISES

To assist Guests with vacation planning, please visit [DisneyCruise.com](https://disneycruise.com) for European cruises where shared ASL interpretation services can be provided.

## ASSISTIVE LISTENING DEVICES

For Guests with mild to moderate hearing loss, *Guest Services* has Assistive Listening receivers to amplify sound at various locations onboard the ship. Please note: in order to avoid being charged a fee, the device must be returned at the end of the cruise.

## CAPTIONING

Stateroom captioning may be activated using the CC button or TV menu options. Guests should be aware that due to satellite limitations and other factors, not all video sources or television signals are available with a caption playback option. Certain movies in the movie theatres are available with open captions. Please consult the *Disney Cruise Line* Navigator App or *Guest Services* for additional information.

## ROOM SERVICE FOR GUESTS WITH HEARING/SPEECH DISABILITIES

Please request a Room Service selection card from your Stateroom Host, if one has not been received.

## STATEROOM COMMUNICATION FEATURES

On the *Disney Magic*, *Disney Wonder*, *Disney Dream*, *Disney Fantasy*, and *Disney Adventure*, Stateroom Communication Kits are available for Guests with hearing disabilities and contain a base unit with alarm clock, bed shaker notification, doorbell and phone alerts, and a smoke detector with a strobe light.

On the *Disney Wish*, *Disney Treasure*, and *Disney Destiny*, select staterooms are already equipped with these communication features, and if needed, select Communication Stateroom when making your cruise reservation. Keep in mind, portable communication kits will not be available on either the *Disney Wish*, *Disney Treasure*, and *Disney Destiny*.

In addition, a stateroom TTY can also be provided. Guests may make arrangements to receive Stateroom Communication Kits through a reservation's Cast Member at the time of booking, Special Services, or by contacting *Guest Services* while onboard the ship.

## WRITTEN AIDS

Guest Assistance Packets containing show scripts are available at *Guest Services*. Packets can be signed out and kept until the night before debarkation, when they must be returned to *Guest Services*. Additionally, Crew Members can utilize a pad of paper and pens/pencils, if necessary, to communicate with Guests.

# VISUAL DISABILITIES

## AUDIO DESCRIPTION

Movies in the theatres are available with audio description. Receivers are available at *Guest Services*. Please note: in order to avoid being charged a fee, the device must be returned at the end of the cruise.

## ALTERNATIVE FORMATS

*Disney Cruise Line* can provide larger print format on select communications upon request. Additionally, select information is available in an audio format, including the *Disney Cruise Line* Navigator App which details the ship's daily activities.

# SERVICE DOGS

Trained service dogs are welcome in most locations onboard Disney Cruise Line ships, Disney Castaway Cay, and Disney Lookout Cay at Lighthouse Point. Disney Cruise Line recognizes service dogs as those that are individually trained to perform tasks for people with disabilities, such as guiding people who are blind, alerting people who are deaf, pulling wheelchairs, alerting and protecting a person who is having a seizure or performing other special tasks.

While onboard Disney Cruise Line ships, all service dogs shall remain on a leash or in a harness and be under the control of their person or a member of the Guest's party at all times. Guests are responsible for the feeding, care, and maintenance of their animal. Be advised that Disney Cruise Line Crew Members are not permitted to take control of service dogs. Also, service dogs are not permitted to be left unattended inside the staterooms.

Due to the nature of some Port Adventures, service dogs may not be permitted. In addition, service dogs are prohibited from entering the pools, whirlpool spas, slides, interactive water features, aquatic play areas, and the sauna / Rainforest Room at the spa locations onboard. In those instances, a member of the Guest's party must remain with the animal. Also, service dogs are not permitted to be left unattended inside the staterooms. Onboard the Disney Adventure, due to the nature of the attractions, service dogs are not permitted to ride Ironcycle Test Run and/or Pym Quantum Racers. Service dogs may be permitted to ride Groot Galaxy Spin, provided the animal is able to fit without impeding rider access. In those instances, a member of the Guest's party must remain with the animal.

Guests traveling with a service dog should contact Special Services as soon as possible to discuss required documentation, service animal relief stations, and availability of Port Adventures. Please be aware that this process may take weeks or months to complete. Additionally, some countries may not allow animals to enter. Permits for each port of call must be sent to *Disney Cruise Line* Special Services prior to sailing. Guests must bring the original documents with them and have these available at all times. Specific information may be obtained by contacting the Department of Agriculture, consulate or embassy of the countries to determine the policies and to obtain the permits needed for each port of call on the sailing itinerary.

**Please be aware that without the required documentation, a service dog may be denied boarding.**

## RELIEF STATIONS

There are designated service animal relief stations onboard. Please contact Special Services in order to discuss details. For information about Disney Island Destinations, please visit the *Disney Castaway Cay* or the *Disney Lookout Cay at Lighthouse Point* section [\*\(available in this booklet\)\*](#).

## RENTAL AND DELIVERY COMPANIES

Guests are free to use their preferred medical supply company. As a convenience, below is a listing of rental companies that may deliver medical supplies to the ships.

Advanced Aeromedical, Inc.

1-800-346-3556

## ON-DECK VIEWING AREAS

For activities around the *Goofy's Pool* deck, an activity participation area for Guests using wheelchairs is available on Deck 9 Midship. In addition, viewing is available on Deck 10 overlooking the pool area. Crew Members will be at these locations to assist Guests in wheelchairs 30 minutes prior to the commencement of on-deck activities. Guests requesting Crew Member assistance should arrive no later than 10 minutes prior to the commencement of the on-deck activity.

## THEATRES

At the *Walt Disney Theatre*, Crew Members will be available at the Deck 4 Forward entrance beginning 30 minutes prior to show times to assist Guests with seating. Wheelchair seating is available in the rear of the theatre, as well as in the front row. For access to seating in the front section, please contact a Crew Member outside the entrance for assistance at least 10 minutes prior to show time.

At the *Buena Vista Theatre*, wheelchair seating is available in the rear of the theatre located on Deck 5 Aft.

## VENUE ACCESS

Access to shipboard facilities is generally through the main entrance to the venue. However, accessibility varies from location to location. Guests may contact a Crew Member at each location for additional information.

### ACCESSIBLE COMMON AREA RESTROOMS

Wheelchair accessible public restrooms are located at the following locations:

Deck 3 Forward – *After Hours*

Deck 3 Aft – *Rapunzel's Royal Table / Tiana's Place*

Deck 4 Forward – *Walt Disney Theatre*

Deck 9 Forward – *Senses Spa & Salon*

Deck 9 Aft – *Cabanas*

Deck 10 Aft – *Palo*

### FATHOMS/AZURE

Ramp access to the upper level is located by the bar area.

### ELEVATOR ACCESS

The Midship elevators are smaller than the Forward and Aft elevators. Therefore, Guests using wheelchairs should use the Forward or Aft elevators whenever possible for easier access.

## LAUNDERETTE

Accessible self-service laundry facilities, located on Deck 6 Midship, are available for a nominal fee by utilizing the *Key to the World* card or DisneyBand+ to operate the washers and dryers and to purchase detergent in these locations.

## PROMENADE DECK - DECK 4

For outer deck access, Guests using wheelchairs should use the Forward or Aft doors.

## RECREATION

Ramped access is provided to most recreation locations.

## AQUADUNK (DISNEY MAGIC) AND TWIST 'n' SPOUT

Accessible by stairs only. Please check signage for height requirements and additional information.

Prosthetics devices may be permitted provided they do not interfere with the attraction ride requirements. Any Guest using a prosthesis with exposed metal, sharp edges, or non-skid materials must cover the prosthesis before riding. Prosthesis coverings must fully cover exposed edges without the possibility of slipping off. Coverings must be made of a smooth cloth material with no gripping qualities and must be durable enough to prevent the prosthesis from protruding through.

Riders are required to meet all posted ride requirements.

## RESTAURANTS

*Lumière's/Triton's* - Access for Guests using wheelchairs is through the portside corridor.

## SENSES SPA & SALON AND FITNESS CENTER

Please see a Spa Crew Member for accessible treatment opportunities.

## ON-DECK VIEWING AREAS

For activities around the *Donald's Pool* deck, ramped access for Guests using wheelchairs is available on the Deck 11 Midship, port side of the pool deck. In addition, viewing is available on Deck 12 overlooking the pool area. Crew Members will be at these locations to assist Guests in wheelchairs 30 minutes prior to the commencement of on-deck activities. Guests requesting Crew Member assistance should arrive no later than 10 minutes prior to the commencement of the on-deck activity.

## THEATRES

At the *Walt Disney Theatre*, Crew Members will be available at the Deck 3 entrance beginning 30 minutes prior to show times to assist Guests with seating. Wheelchair seating is available in various areas of the main seating and balcony sections. For access to seating in the center or front sections of the theatre, please contact a Crew Member outside the entrance for assistance 30 minutes prior to the show time.

At the *Buena Vista Theatre*, wheelchair seating is available in the rear of the theatre via the Deck 5 entrance, or the center of the theatre via the Deck 4 entrance.

## VENUE ACCESS

Access to shipboard facilities is generally through the main entrance to the venue. Guests may contact a Crew Member at each location for additional information.

### ACCESSIBLE COMMON AREA RESTROOMS

All public restrooms onboard offer wheelchair accessible facilities.

### THE DISTRICT/EUROPA

All locations in *The District/Europa* are accessible via the main entrance. In *Evolution/The Tube*, access to the dance floor is available via the ramp to the left side of the stage. Stage access is available via the ramp to the right side.

### LAUNDERETTE

Accessible self-service laundry facilities, located on Deck 5 Aft, are available for a nominal fee by utilizing the *Key to the World* card or DisneyBand+ to operate the washers and dryers and to purchase detergent in these locations.

### PROMENADE DECK - DECK 4

For outer deck access, Guests using wheelchairs should use the Forward or Aft doors.

## RECREATION

Ramped access is provided to most recreation locations. Access to *Goofy Golf* (miniature golf), Deck 13 Aft, is available using the ramp at the entrance to each hole.

## AQUADUCK AND MICKEY'S SLIDE

Accessible by stairs only. Please check signage for height requirements and additional information.

Prosthetics devices may be permitted provided they do not interfere with the attraction ride requirements. Any Guest using a prosthesis with exposed metal, sharp edges, or non-skid materials must cover the prosthesis before riding. Prosthesis coverings must fully cover exposed edges without the possibility of slipping off. Coverings must be made of a smooth cloth material with no gripping qualities and must be durable enough to prevent the prosthesis from protruding through.

Riders are required to meet all posted ride requirements.

## RESTAURANTS

*Royal Palace/Royal Court*: Access for Guests using wheelchairs is available via the restaurant entrance on the portside corridor.

## SENSES SPA & SALON AND FITNESS CENTER

Please see a Spa Crew Member for accessible treatment opportunities.
